

Event Sponsor Handout

So you've decided to help sponsor a photo booth for your event?

We have a variety of ways that you can offset the cost of your photo booth rental by utilizing one or more sponsors.

On the following pages we will share a number of different ways that we can feature your sponsor's brand or participation in our guests' experience to know that your sponsor is being recognized for their contribution to your event.

So if you have a single sponsor whether they are a full or just a partial sponsor we can break down some of the individual components as a suggested value for each item.

PRINT LAYOUTS

SINGLE SPONSOR

MULTIPLE SPONSORS

Considering the printed photo is the main thing that photo participants will save and place in their homes or places of business - not to mention a digitally delivered version of this photo will be posted on social media this is the most valuable of all the sponsorship options. We suggest at least 25% of the total value of the rental for this valuable real estate. So whether one single sponsor contributes this amount or it's divided for sharing the space.

Custom Backdrops

You could have the sponsor create an entire photo set like these

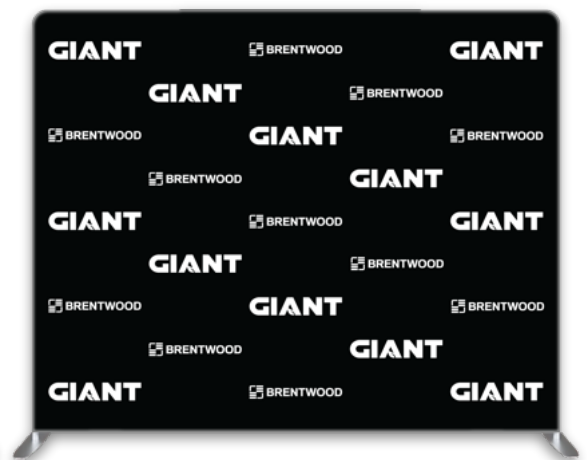

We have designers we can suggest if this is a look you're interested in

We also make custom printed backdrop that we can customize or brand

Another great way to incorporate a sponsor is with our online photo delivery method.

We utilize modern marketing methods and have incorporated it into our photo booth ecosystem. Once photos are taken and instantly uploaded they are embedded into one of our microsites where guests can view their photos AND everyone's photos from the entire event.
